

## Anza Solar Subscription Packages

For Module Buyers

Anza offers two data and analytics subscriptions that enable solar module buyers to reduce costs, minimize risk, and make more confident decisions, faster. With the Anza Essentials productivity tool for time-saving and the Anza Pro optimization tool to help increase project profits, you can compare modules in minutes and access the technical and risk data you need instantly. **Learn more about the package options available to fit your company's needs.**

		Essentials	Pro
Market-wide view	Compare modules from 35+ vendors and 155+ products	*	*
Current pricing	Access list pricing for 95% of U.S. module supply	*	*
	Optimize purchase timing by quarter		*
	See historic & forward-looking visualizations from suppliers across ten delivery quarters showing minimum and median \$/Watt pricing filterable by segment (i.e. cell type, Tier, trade risk, & U.S. manufacturing, & delivery date)		*
Extensive up-to-date data	Download the latest technical documents easily (e.g., PAN files, data sheets, LID, IAM, etc.)	*	*
	Find a module that meets your specific criteria using technical, trade risk, and domestic content data filters	*	*
	Reduce risk by filtering module options using counterparty and contract term data and advanced technical filters		*
One of a kind technology	Compare install costs and production for 155+ products to buy based on value, not just price	*	*
	Rank product options by total value, purchase price, BOS savings, or production benefit to maximize project profit		*
	Tailor optimization to your project specs (e.g., custom module price, location, PPA rate and term, discount rate, etc.) to improve returns		*
